Exploring Music with Bill McGlaughlin | WFMT
Sep 27, 2021 · Exploring Music is an adventure — an expedition through the world of classical music. We pick a theme each week and follow the music wherever it leads us. Over the years we’ve explored Shakespeare and music, have followed the lives of many composers (a sort of five-part mini-series), and visited the music of various locales — Paris, Venice, Spain, Hungary, the Pacific Rim.

Exploring ggplot2 boxplots - Defining limits and adjusting
Boxplots are often used to show data distributions, and ggplot2 is often used to visualize data. A question that comes up is what exactly do the box plots represent? The ggplot2 box plots follow standard Tukey representations, and there are many references of this online and in standard statistical text books. The base R function to calculate the box plot limits is boxplot.stats.
