This is one of the few documents in the field for studying the effects of a particular intervention. Specifically, it is an intervention designed to reduce stress in individuals. The intervention involves a combination of mindfulness exercises and guided imagery sessions. The results show a significant decrease in stress levels among participants. However, further research is needed to confirm these findings.

Thurgood

Jonah Winter 2019

Thurgood Marshall—the first black justice on the Supreme Court and a giant of the civil rights movement—jumps to life in this inspiring picture-book biography from an award-winning author and six-time Coretta Scott King, four-time Caldecott Honor-winning illustrator. Thurgood Marshall was a born lawyer—the loudest talker, funniest joke teller, and best arguer from the time he was a kid growing up in Baltimore in the early 1900s. He would go on to become the star of his high school and college debate teams, a stellar law student at Howard University, and as a lawyer, a one-man weapon against the discriminatory laws against black Americans. After only two years at the NAACP, he was their top lawyer and had saved enough money to open his own firm.

He went on to become one of the most important figures in American history. As a lawyer, he argued and won cases before the Supreme Court, including one of the most important cases in American history: Brown v Board of Education. And he became the first black U.S. Supreme Court Justice in history. Like its subject, here is a biography that crackles with energy and intensity—a great introduction to a great man.
