Comparative Housing Sales and Purchase Agreements Under the Malaysia, Singapore and New South Wales Housing Laws (UUM Press) - Nuarrual Hilal Md. Dahlan 2011-01-01
Abandoned housing projects is one the major problems in housing industry in Peninsular Malaysia. The reasons leading to this problem are many. This catastrophe has caused multifarious problems to the stakeholders, particularly the purchasers who become the aggrieved parties. To date, there is no effective and once-and-for-all means to face the problems of abandoned housing projects. One of the factors which causes abandonment of housing projects in Peninsular Malaysia, is the lack of political will on part of the government to adopt an affirmative better housing delivery system such as the ‘full build then sell system’ and the introduction of a housing development insurance to face the problems of housing abandonment. This book provides in-depth analyses of the terms and conditions of the statutory standard sale and
purchase agreements as enshrined in Schedules G, H, I and J of the Housing Development (Control and Licensing) Regulations 1989. The objective of this book, among others, is to identify the weaknesses of the terms of the agreements, if any, which may have contributed to the problem of abandoned housing projects and their consequential troubles. As comparative analyses, the terms and conditions of the sale and purchase agreements as applicable and enforced in the Republic of Singapore and New South Wales, Australia, are chosen. The purpose of these comparative analyses is to find the terms and conditions in these foreign jurisdictions’ agreements which can be learned and adopted in the statutory standard sale and purchase agreements (Schedules G, H, I and J). It is also for the betterment of the Malaysian housing industry as a whole, and to protect the interests of the stakeholders, in particular the purchasers as against the problems of housing abandonment and its consequences.

Understanding and Interpreting Data on the Learning of English Tenses and Verb Forms - Jason Miin-Hwa Lim 2021-01-08 Guiding learners to acquire sufficient knowledge of grammar constitutes an interesting domain in the field of teaching English as a second language. This research-based resource book focuses on the learning of English tenses and verbal categories, which forms a huge and fascinating component of English grammar that merits attention in teachers’ attempts to improve their students’ English proficiency. Inspired by concepts relating to explicit learning, consciousness raising, contrastive analysis and error analysis, the author used a wealth of data derived from a set of elicitation procedures to reveal the linguistic interference encountered by second language learners. Arguing for the need to conceptualise grammatical rules positively, this inquiry focuses on studying learners’ wide-ranging responses to a large number of items designed to explore linguistic interference in the learning of English verb forms in eight major categories. The findings, explanations and illustration-based
recommendations provided in this volume will give trainee teachers, instructors and researchers deeper insights into how strategies can be aptly employed to enhance learners’ performance in using English verb forms and related grammatical categories, which constitute a key dimension in the learning and teaching of English as a second language.

English In Multicultural Malaysia: Pedagogy And Applied Research (UM Press)-Zuraida Mohd Don

Like several other Asian countries, Malaysia uses English for a variety of official, professional and everyday purposes. Many Malaysians use English alongside their first language, typically Malay, Chinese or Tamil, but have a particular need for English if they are to succeed in their careers. What is special about this book is that it looks under the surface of the use of English, and shows how the teaching of English is tailored to bring this language situation about, by applying recent developments in the study of English and of English Language Teaching. It deals with questions such as the use of corpora in language teaching, and investigates some of the obstacles young Malaysians face in acquiring the necessary command of English. Issues investigated include the link between lack of proficiency and lack of motivation, the effect of examinations and the ‘washback’ effect, and the problems of academic writing. Other chapters deal with English in the workplace, including doctor-patient communication, the communication challenges facing tour guides, and gender-based differences in the learning of computer skills. The book will be of great value to anyone professionally involved with global English, ‘glocalisation’ or language contact.

Glosari Pengajian Ilmu Penterjemahan dan Interpretasi- 2006

Retorik Penulisan Dakwah (Penerbit UM)- Nor Raudah Hj Siren Buku ini menyentuh perkaitan antara dakwah dengan ilmu retorik dalam usaha mempengaruhi khalayak sasaran melalui penulisan. Dakwah merupakan aktiviti seruan yang ditugaskan kepada kaum muslimin dengan cara-cara tertentu kepada orang lain supaya melakukan kebaikan dan menjauhi perkara yang mungkin. Oleh sebab ia bersifat seruan untuk melakukan kebaikan dan larangan melakukan kejahatan, maka isi kandungan dalam dakwah menjadi tumpuan dalam mencapai matlamat dakwah. Selain mesej dakwah, gaya penyampaian (uslub al-da`wah) merupakan elemen yang membantu mesej dakwah disampaikan dengan lebih baik dan difahami serta mampu mempengaruhi khalayak.

Memandangkan usaha menyampaikan dakwah berkait dengan tugas mengubah pendapat, tingkah laku dan keyakinan manusia, maka pelbagai gaya dan pendekatan boleh dilakukan bagi mempertingkatkan keberkesanan penyampaian mesej dakwah, iaitu menggunakan ilmu retorik. Ilmu retorik yang diperkenalkan dalam buku ini dilihat dari perspektif dakwah yang tertumpu kepada kaedah untuk memanipulasi mina dan perasaan khalayaknya (uslub pembujukan dakwah) sama ada secara lembut, secara keras, secara halus, secara terus-terang, pendalilan rasional dan pendalilan emotif sesuai dengan kehendak al-Quran sebagaimana dalam Surah al-Nahl ayat 125

Principles of Management-David S. Bright Principles of Management is designed to meet the scope and sequence requirements of the introductory course on management. This is a traditional approach to management using the leading, planning, organizing, and controlling approach. Management is a broad business discipline, and the Principles of Management course covers many management areas such as human resource management and strategic management, as well behavioral areas such as motivation. No one individual can be an expert in all areas of management, so an additional benefit of this text is that specialists in a variety of areas have authored individual chapters.

The Madrasa in Asia-Farish A. Noor 2008 Summary: "Since the rise of the Taliban and Al Qaeda, the traditional Islamic schools known as the madrasa have frequently been portrayed as hotbeds of terrorism. For much longer, the madrasa has been considered by some as a backward and petrified impediment to social progress. However, for an important segment of the poor Muslim populations of Asia, madrasas constitute the only accessible form of education. This volume presents an overview of the madrasas in countries such as China, Indonesia,
Malaysia, India and Pakistan."--Publisher
