The Irish Yearbook of International Law, Volume
The Irish Yearbook of International Law is intended to stimulate further research into Ireland's practice in international affairs and foreign policy, filling a gap in existing legal scholarship and assisting in the dissemination of Irish thinking and practice on matters of international law. On an annual basis, the Yearbook presents peer-reviewed academic articles and book reviews on general issues of international law. Designated correspondents provide reports on international law developments in Ireland, Irish practice in international fora and the European Union, and the practice of joint North-South implementation bodies in Ireland. In addition, the Yearbook reproduces documents that reflect Irish practice on contemporary issues of international law. Publication of the Irish Yearbook of International Law makes Irish practice and opinio juris more readily available to Governments, academics and international bodies when determining the content of international law.

In providing a forum for the documentation and analysis of North-South relations the Yearbook also makes an important contribution to post-conflict and transitional justice studies internationally. As a matter of editorial policy, the Yearbook seeks to promote a multilateral approach to international affairs, reflecting and reinforcing Ireland's long-standing commitment to multilateralism as a core element of foreign policy.

<td>A History of the Irish Poor Law</td>
<td>George Nicholls 2006-01-01 Reprint of the sole edition. Nicholls [1781-1865] was a pioneering poor-law reformer and administrator. While Great Britain's Poor Law Commissioner he drafted the Irish Poor-Law Act (1832). One of the first to assert that relief bred a culture of dependency and a resistance to work, he advocated the abolition of relief except as a last resort. Includes sections on urban poor, workhouses, housing conditions, child labor, vagabonds etc. In addition to the present study, he wrote A History of the English Poor Law (1854) and A History of the Scotch Poor Law (1856). Like his other studies, this one relates the evolution of poor laws since the medieval era to economic, social and political history. Notably sophisticated works, they were held in high regard by Sir Leslie Stephen and F.W. Maitland.</td>

International Law - Jan Wouters 2018-12-13 This textbook offers for the first time a comprehensive analysis
of the classic doctrines and main areas of international law from a European perspective, meeting the needs of the many European law schools teaching public international law in English. Special attention is devoted to the practice of the European Union, the Council of Europe and European States - both civil law and common law countries – with regard to international law. In particular the book analyses the interplay between international law, EU law and national law in the case law of the Court of Justice of the EU, the European Court of Human Rights and national jurisdictions in Europe. It provides the reader with insights into how the international legal practice of the EU and its Member States impacts the development of international law, both in terms of doctrines such as treaty-making and customary law, the exercise of (extraterritorial) jurisdiction, state responsibility and the settlement of disputes, as well as particular sub-fields of international law, such as human rights law and international economic law. In addition the book covers other important areas such as the use of force and collective security, the law of armed conflict, and global and regional international organisations. It provides European perspectives on all these issues and will be of great value to students, scholars and practitioners.
