Japanese pottery and porcelain - Wikipedia
Arita, Saga: The main source of Japanese export porcelain from the mid 17th-century onwards. Production began by Korean potters at the beginning of the Edo period. A multitude of kilns produced a variety of styles, including Imari ware and Nabeshima ware, and most early pieces in the Kakiemon style of decoration. Asahi ware: 朝日焼 Banko

Porcelain - Wikipedia
Hard-paste porcelain was invented in China, and also used in Japanese porcelain, and most of the finest quality porcelain wares are in this material. The earliest European porcelains were produced at the Meissen factory in the early 18th century; they were formed from a paste composed of kaolin and alabaster and fired at temperatures up to 1,400 °C (2,552 °F) in a ...  

Japanese Porcelain Marks - Gotheborg.com
During the 17th and early 18th century Japanese porcelain, largely imported by the Dutch East India Company (VOC), was very popular in Europe and competed successfully with the Chinese. Blue and white Arita porcelain was copied on tin glazed earthenware in many places in Europe, of which Dutch "Delft" is the most famous.

Hands-On Seiko Pressage Arita Porcelain Dial Limited
Dec 08, 2021 · Arita porcelain is an ancient Japanese craft, named after a small town located on the Japanese island of Kyushu. Towards the end of the 16th century, porcelain clay was found in the vicinity transforming the area into a hub for Japanese porcelain. Early wares used underglaze blue decoration, but by the mid-17th century, Arita was at the

How to Identify Japanese Pottery Porcelain Marks | Hunker
Many early Japanese pottery marks were hand-painted, as they were viewed as a signature. A mark made by stencil is a much later way of marking, dating from the Showa period (1926 to 1989). To illustrate how difficult it can be to pinpoint an item's manufacturing period, both Arita ware from the Qianlong period (18th century) and from the 1970s

Types of Japanese Pottery and Porcelain
Thus substantial amounts of Japanese porcelain ware were made in the town of Arita and exported to Europe from the port of Imari by the Vereenigde Oostindische Compagnie (VOC) from the late 17th to early 18th century in order to meet demand in the west. Thus Arita porcelain is also often known as Imari.

9 Most Notable Styles Of Japanese Ceramics
May 31, 2019 · Because Arita ware is made in the city of Arita before exported through the port in Imari, it is also called Imari ware. Deeply influenced by the blue and white pottery produced in Jingdezhen, China, early Arita wares are mostly painted in blue on white background. It’s greatly admired by Japanese people for its light, purely white body.

V&A · Japan's Encounter With Europe, 1573 - 1853
Lacquer though was always secondary in importance to porcelain. First made in Japan in and around the town of Arita, in the northern part of Kyushu, in the early 17th century, porcelain differed greatly from ceramics previously made in Japan. Both the use of the material and the way it was decorated owed much to the influence of China and Korea.
