**Pisidian Antioch** - Stephen Mitchell 1998-12-31
The city of Pisidian Antioch was founded in the hellenistic period by the Seleucids, in what is now south-west Turkey. Under the emperor Augustus it became the most important Roman colony of the eastern empire. The city flourished until the sixth century AD. It has left dramatic and extensive ruins. This comprehensive and fully-illustrated study, a sequel to Mitchell's Cremna in Pisidia, is based on a new survey of the site. It also includes the results of the most recent Turkish field work as well as detailed information from the important but unpublished 1924 excavation by the University of Michigan.

After a review of scholarly work on the speeches in Acts, particularly Paul's Pisidian Antioch speech, Morgan-Wynne sets Paul's speech in the context of the first missionary journey and of the rest of Luke-Acts. In this book he analyzes the structure of the speech, asks whether Luke used sources for the speech, and examines the main theological themes, including the characterization of God and Jesus, the use of the OT, the place of Israel, and the portrait of Paul that emerges. Finally, the author looks at whether the speech sheds any light on the community for which Luke wrote and the problems which it may have been facing.

**Paul's Early Period** - Rainer Riesner 1998
Riesner recognizes a problem in the chronologies proposed in the literature he surveys: often one or two 'absolute dates' are given, and the rest of the chronological details follow from those few established dates. In the next section Riesner seeks to go point-by-point through a chronology of the early ministry of Paul, discussion the evidence at each point for particular events in Paul's life and ministry. He is wary not to merely fit a date into a chronological scheme without providing good support for that date independent of other chronological markers (if possible). Riesner interacts with both conservative and non-conservative literature. The bibliography is massive (80 pages, with approximately 30 sources per page!), and footnotes in the volume indicate that Riesner is, indeed, familiar with the literature.

1998 This groundbreaking commentary is the first to provide a detailed social and rhetorical analysis of the book of Acts. Ben Witherington draws on the best new insights from a number of disciplines to provide readers with the benefits of recent innovative ways of analyzing the text of Acts. In addition, Witherington gives detailed attention to major theological and historical issues, including the question of the relationship of Acts to the Pauline letters, the question of early Christian history and how the church grew and developed, the relationship between early Judaism and early Christianity, and the relationship between Christians and the officials of the Roman Empire.

The Forgotten Officer-Joe Kohler 2016-04-11 The Bible teaches that the church is the fullness of Christ on earth (Eph. 1:23) and that God is able to do abundantly beyond all that we ask or think, according to the power at work within the church (Eph. 3:20). So why are so many people disappointed with their church experiences? Why do so many outsiders view the church as irrelevant? Why do so many hop from one church to the next looking for fulfillment? Why are so many professing Christians seeking a form of Christian experience that no longer needs any connection with the organized church? The truth is that we have collectively drifted away from God’s blueprint for growing the body of Christ up into full maturity and attaining the fullness that he designed. We have inherited a leadership model that is more influenced by pagan practices, pragmatism, and capitalism than by the Scriptures. This cultural inheritance is extremely powerful, and it has resulted in a contemporary blind spot on a biblical truth of critical importance. It has led to our modern failure to properly recognize and appreciate a gift given by Jesus to his bride! This is the bad news. The good news is that reform is possible. Learn what has been forgotten, and rediscover the fullness of God’s design for his church!

Teaching as Paul Taught-RoyCheck B. Zuck 2003-11-20 Though books on Paul’s life and writing abound, very few works have examined the apostle’s teaching techniques. In this companion to ‘Teaching as Jesus Taught,’ Roy Zuck probes Paul’s pedagogy to discover principles for effective teaching today. According to Zuck, the apostle Paul stands as a master teacher. “Analyzing and following Paul’s educational goals and strategies,” Zuck writes, “can help us become better teachers of God’s Word. Examining his pedagogy can acquaint us with a number of important principles and procedures in teaching.” ‘Teaching as Paul Taught’ explores the many New Testament references to Paul’s teaching as well as the historical and cultural context in which the
apostle taught. Zuck carefully organizes this extensive material around fifteen key questions regarding the teaching ministry of Paul. Over twenty tables and questions for reflection at the end of each chapter aid readers in following Paul's example. The result is a comprehensive and practical handbook for everyone involved in a teaching ministry.

Colossae in Space and Time-Alan H. Cadwallader 2011-12-07 The ancient site of Colossae in south-west Turkey has been sorely neglected by archaeologists and biblical commentators. It has never been excavated. Modern scholarship in general has been content to repeat nineteenth century assessments, especially those of J.B. Lightfoot and W.M. Ramsay. This is the first modern contribution to gather the archaeological, historical, classical and biblical materials related to the site and its region, some of which is published in English for the first time. It marks a major step forward in scholarship on Colossae, and is designed to restore Colossae to time and space, to its material and comparative significance. Colossae emerges as a site of uninterrupted human activity in dynamic interaction with its neighbours from before the Achaemenid period to beyond the end of Byzantine control. Evidence of a chalcolithic origin of Colossae is presented along with an assessment of the relationship of the site to the modern city of Honaz. An array of international scholars have brought their specialisations in various periods and disciplines to yield a radically new assessment of the history and importance of the site. All future scholarship will be able to use this volume as the necessary foundation for research. The volume includes the first chronology of the ancient site and the first English translation of the key Byzantine text centred on the ancient city, as well as major new insights into the text of the Epistle to the Colossians.

The Book of Acts-F. F. Bruce 1988-06-30 """" undertaken to provide earnest students of the New Testament with an exposition that is thorough and abreast of modern scholarship and at the same time loyal to the Scriptures as the infallible Word of God.‘‘This statement reflects the underlying purpose of The New International Commentary on the New Testament. Begun in the late 1940s by an international team of New Testament scholars, the NICNT series has become recognized by pastors, students, and scholars alike as a critical yet orthodox commentary marked by solid biblical scholarship within the evangelical Protestant tradition. While based on a thorough study of the Greek text, the
commentary introductions and expositions contain a minimum of Greek references. The NICNT authors evaluate significant textual problems and take into account the most important exegetical literature. More technical aspects — such as grammatical, textual, and historical problems — are dealt with in footnotes, special notes, and appendixes. Under the general editorship of three outstanding New Testament scholars — first Ned Stonehouse (Westminster Theological Seminary, Philadelphia), then F. F. Bruce (University of Manchester, England), and now Gordon D. Fee (Regent College, Vancouver, British Columbia) — the NICNT series has continued to develop over the years. In order to keep the commentary “new” and conversant with contemporary scholarship, the NICNT volumes have been — and will be — revised or replaced as necessary. The newer NICNT volumes in particular take into account the role of recent rhetorical and sociological inquiry in elucidating the meaning of the text, and they also exhibit concern for the theology and application of the text. As the NICNT series is ever brought up to date, it will continue to find ongoing usefulness as an established guide to the New Testament text.

Rhetorical Mimesis and the Mitigation of Early Christian Conflicts-Brad McAdon 2018-01-16 This interdisciplinary study focuses upon two conflicts within early Christianity and demonstrates how these conflicts were radically transformed by the Greco-Roman rhetorical and compositional practice of mimesis—the primary means by which Greco-Roman students were taught to read, write, speak, and analyze literary works. The first conflict is the controversy surrounding Jesus’s relationship with his family (his mother and brothers) and the closely related issue concerning his (alleged) illegitimate birth that is (arguably) evident in the gospel of Mark, and then the author of Matthew’s and the author of Luke’s recasting of this controversy via mimetic rhetorical and compositional strategies. I demonstrate that the author of our canonical Luke knew, vehemently disagreed with, used, and mimetically transformed Matthew’s infancy narrative (Matt 1-2) in crafting his own. The second controversy is the author of Acts’ imitative transformation of the Petrine/Pauline controversy—that, in Acts 7:58—15:30, the author knew, disagreed with, used, and mimetically transformed Gal 1-2 via compositional strategies similar to how he transformed Matthew’s birth narrative, and recast the intense controversy between the two pillars of earliest Christianity, Peter and Paul, into a unity and harmony that, historically, never existed.

Ekklesia - Ed Silvoso 2017-05-02 Dynamic New Teaching from Bestselling Author Ed Silvoso The word church has many connotations; we think of it as a specific building, as a group of people, even as a long service to sit through. We hardly ever think of it as world-changing--and neither does society. Yet this is exactly what the first-century ekklesia was. In these vital, eye-opening pages, bestselling author Ed Silvoso takes you back to the first days of the church. Digging into Scripture, he shows how the New Testament church-devoid of buildings, professional clergy, and religious freedom--was able to transform the hostile, pagan places into which it was born and set in motion a process that changed the world forever. Even more, Silvoso offers a roadmap back to becoming the ekklesia Jesus called his church to be. In the midst of the social, economic, political, and moral chaos in our world today, we possess the hope that people and nations so desperately need--and we can become the revolutionary, transformational, life-giving voice Jesus called us to be. A new, in-depth curriculum kit--which features a DVD with 12 brand-new teaching sessions, a group guide for both leaders and participants, and a copy of the book--is also available. Expounding on the book's dynamic teachings, each kit contains everything you need to equip your group to transform the world around them.

Biblical Preaching and Teaching - Dallas R. Burdette 2009-08 One objective of this book is to set forth the heart of God's Gospel. This volume is composed of a compilation of sermons and in-depth studies designed to strengthen and encourage Christians in their daily walk with God and with one another. Since the Cross of Christ is pivotal to a proper understanding of Christianity, numerous chapters in this book explore the "ins" and "outs" of the importance of the Cross in the lives of God's people. Not only does this book focus upon the scheme of God's redemption and evangelism as a part of every believer's ministry, it also calls attention to Christian apologetics, that is, a defense of Christianity. Three chapters are devoted to this kind of study: (1) Christianity versus Skepticism, (2) Credibility and Candor of the New Testament Writers, and (3) Paul's Conversion: Apologetic for Christianity. Also, this book allocates three chapters to the subject of baptism and its meaning to God's children. And, finally, four chapters are dedicated to a detailed study of worship within the Christian community. Dallas Burdette has been a serious student, teacher and preacher of the Bible for fifty-eight years, supporting himself for many years as an agent for AFLAC. He has written numerous articles for religious journals, as well as many essays and sermons which are available on his website (www.freedominchrist.net). He has developed a keen interest in promoting unity among God's people through a more accurate reading of the Word. He has degrees from Amridge University (formerly Southern Christian University) where he also was Director of Extended Learning for five years. He holds the Doctor of Ministry degree (1999) from Erskine Theological Seminary.

The Teaching of St. Paul in Terms of the Present Day - William M. Ramsay 2021-05-23

Written Space in the Latin West, 200 BC to AD 300 - Gareth Sears 2013-07-18 This volume explores the creation of 'written spaces' through the accretion of monumental inscriptions and non-official graffiti in the Latin-speaking West between c.200 BC and AD 300. The shift to an epigraphic culture demonstrates new mentalities regarding the use of language, the relationship between local elites and the population, and between local elites and the imperial power. The creation of both official and non-official inscriptions is one of the most recognisable facets of the Roman city. The chapters of this book consider why urban populations created these written spaces and how these spaces in turn affected those urban civilisations. They also examine how these inscriptions interacted to create written spaces that could inculcate a sense of 'Roman-ness' into urban populations whilst also acting as a means of differentiating communities from each other. The volume
includes new approaches to the study of political entities, social institutions, graffiti and painting, and the differing trajectories of written spaces in the cities of Roman Africa, Italy, Spain and Gaul.

A Dictionary of the Bible: Kir-Pleiades-James Hastings 1902

The Sabbath In Scripture-

Cremna in Pisidia-Stephen Mitchell 1995-12-31 Cremna, a ruined city of southern Turkey, has one of the most spectacular sites in Asia Minor, high in the Taurus mountains. For a long time a stronghold of hellenised Pisidians, Cremna was refounded as a veteran colony by the emperor Augustus. From the age of Hadrian until the early third century AD the colony enjoyed a boom in public buildings, whose remains still adorn the site. Disaster struck in the late third century when Cremna became a centre for a regional insurrection against Roman rule. Roman forces staged a major siege of the city, and recaptured it in AD 278. A bishopric in Late Antiquity, Cremna was abandoned in the sixth or seventh century. This book gives a detailed reconstruction of Cremna’s life and history, based on an intensive survey of the archaeological remains between 1985 and 1987. There is a lively account of the survey itself. The book also traces the story of the rediscovery of the site in 1833 and the contribution of early travellers and archaeologists. There is a full study of the public building programme of Cremna from the first century BC to the third century AD; of the aqueduct, water supply and domestic housing; and of the church building in Late Antiquity. The highlight of the archaeological survey was the discovery of numerous remains of the Roman siege of AD 278. The siege of Cremna demonstrates classical techniques of Roman siege warfare, which hitherto were best known from Josephus’ account of the Jewish Revolt in AD 66-73. Cremna in Pisidia is written in a style accessible to general readers as well as to specialists. It is not only a definitive account of an important city of the Roman East. It is also a case-study exploring many of the common characteristics of civic life in the Roman world.
